

U.S. Patent Application Serial No. 09/926,576

copolymer composed of lactic acid or lactide, and polyester comprising hydroxyl groups on both terminals.

12. (Amended) The polyester composition according to claim 11, wherein a proportion of the lactic acid polyester (III) and the polylactic acid (V) is within a range of a weight ratio of 3.97 to 70:30.

15. (Amended) The polyester composition according to claim 11, wherein the weight average molecular weight of the polylactic acid (V) is 50,000 or more.
